Message from Assessor

Christina Wynn

I'm pleased to announce that this year's assessment roll has reached a record \$256.9 billion representing a 5.41% increase over last year. This milestone reflects the total gross assessed value of locally assessed real, business, and personal property in Sacramento County as of January 1, 2025.

This report provides comprehensive details about Sacramento County's 2025-2026 assessment roll, property tax savings programs, and other key information. These impressive results reflect the dedication of our employees, who continue to serve our communities with excellence while performing essential property assessment functions.

I want to thank all employees for their unwavering commitment to our mission and values, their extraordinary customer service, and their ongoing efforts to improve our processes.

I welcome your feedback, and you can contact me directly at wynnc@sacounty.gov.

Best regards,

A handwritten signature in blue ink that reads "Christina Wynn".

Christina Wynn
Sacramento County Assessor

Key Highlights:

Net Assessed Value

After deductions for property tax exemptions, including those for homeowners, disabled veterans, and charitable organizations, the net assessed value stands at \$244 billion.

Property Value Growth

While the overall assessment roll increased by 5.41%, most properties saw a 2% increase, thanks to the protections under Proposition 13.

New Development Impact

This year's growth is largely attributed to sustained increases in residential values and ongoing new housing development, which added over \$10.7 billion in value.

Business Investment Impact

Businesses invested over \$1.1 billion in personal property assets.

Revenue Generation

The assessment roll is expected to generate approximately \$2.4 billion in property tax revenue—an increase of \$123 million over last year. Property tax revenue is a critical source of funding for over 175 local government agencies, including schools, fire districts, parks, and community service districts, as well as cities and redevelopment agencies. It is also one of the largest sources of discretionary funding for Sacramento County's General Fund.

Disabled Veterans' Exemption Program Reaches New Milestone

This program aimed to reach over 5,000 disabled U.S. Military Veterans homeowners in Sacramento County. We tripled the original savings goal and closed the gap with over 4,517 qualified disabled veterans receiving this benefit in 2025.

Award Winning Innovation

Our program is the first of its kind in California, setting a new standard for adding detailed ADU-specific attributes to our property database.

The Role of the Assessor

The Assessor is a Constitutional Officer elected every four years by the people of Sacramento County.

The Assessor's primary responsibility is to locate all taxable property in Sacramento County; identify its ownership; appraise and assess this property, apply all legal exemptions and exclusions, as of January 1st of the calendar year; and to list it on the assessment roll.

Property value is determined by the Assessor and applicable state and local laws. Although this value is then used to calculate property taxes, the Assessor does not set property tax rates, issue tax bills, or receive property tax payments.

The Assessor must maintain records of the above and provide property owners and the public access to assessment roll information, as allowed by law.

Our Mission

We provide equitable, timely, and accurate property tax assessments and information.

Our Values

- Professionalism
- Integrity
- Efficiency

Property Tax Workflow

Clerk Recorder

Provides copies of all deeds and recorded documents

City & County Agencies

Provide copies of all building permits issued

Assessor

Assesses all real and personal property (businesses, manufactured homes, boats, and airplanes) located throughout the County

Auditor-Controller

Receives the assessments from the Assessor and applies the appropriate tax rate and special assessments to determine the actual amount of property taxes owed

Treasurer-Tax Collector

Prepares and distributes property tax bills and processes property tax payments

Auditor-Controller

Allocates property tax revenue to over 175 local taxing agencies, including the County, cities, schools, and special districts

Property Assessments & Tax Revenue Distribution

Property assessments generate significant property tax revenue, one of the largest sources of discretionary funding for Sacramento County's General Fund.

After the deduction of homeowners', disabled veterans', and charitable organization exemptions, the County's total net assessed value for 2025-26 is \$244 billion. This year's assessment roll generates over \$2.4 billion in property tax revenue, yielding an added \$123 million in gross revenue over last year.

Property tax revenue collected at the County level is distributed to over 175 local government agencies; cities, schools, and special districts such as fire, park, community service and cemetery districts.

Exciting Update: Disabled Veterans' One Million More Thanks Campaign

Connecting and Caring for Our Heroes

Imagine a campaign dedicated to honoring and supporting our disabled veterans, easing their financial burdens while acknowledging their invaluable contributions. This vision became a reality during the 2019-2020 tax year with the launch of the Sacramento County Assessor's "One Million More Thanks Campaign."

Aiming for Impact

This program aimed to reach over 5,000 disabled U.S. Military Veterans and their families in Sacramento County, informing them about the significant savings available through the Disabled Veterans' Property Tax Exemption. The goal was clear: if around 550 more veterans qualified, they would collectively save over \$1 million.

Building Bridges

The campaign was a collaborative effort, with the Assessor's Office partnering with Sacramento County Veterans Services, CAL VET Loans, and local organizations including the Sacramento County Board of Realtors. Enhancements to the Assessor's website made information more accessible, with a prominent feature on the front page and user-friendly webpages. A direct phone line and email address provided veterans and their families with easy access to the experienced and responsive Disabled Veterans' Exemption team.

Celebrating Success

We're thrilled to share the results of this campaign. The number of Disabled Veterans' Exemptions soared from 3,141 in 2020 to 4,517 in 2025, an increase of 1,376 qualified claims and resulting in more than triple the original savings goal. The total amount of exemptions grew from \$423,756,895 to an impressive \$763,700,170, resulting in a net increase of \$339,943,275. At a 1% ad valorem tax rate, that's a staggering \$3.4 million in savings.

Join us in celebrating this monumental achievement and continue to support our disabled veterans. A million more thanks to our Disabled Veterans' Exemption team, their dedication and participation has made this campaign an overwhelming success.

Understanding Proposition 13:

The Foundation of Property Tax in California

Proposition 13, passed by California voters in 1978, remains the cornerstone of how property is assessed and taxed in our state. Here's how it works—and how it affects your property taxes:

How Property Is Assessed Under Proposition 13

Base Year Value:

When property is acquired, it's assessed at its market value as of the date of purchase. This becomes the base year value.

Annual Increases Limited:

Each year after that, the assessed value can increase by a maximum of 2% per year, regardless of how much the market value changes.

Tax Rate Cap:

Property taxes are capped at 1% of the assessed value, plus any voter-approved local taxes or special assessments.

What This Means for Property Owners

- Property taxes remain predictable and stable over time, even if the property's market value goes up dramatically.
- Property is not reassessed to market value each year—only when the property changes ownership or undergoes major new construction.
- This system gives property owners peace of mind and protection from sudden spikes in their tax bills.

Proposition 13 in Action: Property Value vs. Assessed Value Over Time

Example: A home was purchased in 2015 for \$300,000. That becomes your base year value. Even if similar homes are now selling for \$500,000, the assessed value might only be around \$350,000 due to the 2% cap.

Proposition (Prop 8): Temporary Property Tax Relief

Understanding How It Works

A property qualifies for a temporary assessed value reduction when the market value of that property, as of January 1 (lien date), dips below its Prop 13 factored base year value. This temporary reduction is referred to as a Prop 8 reduction.

What Can Cause a Drop in Market Value?

- Declines in the real estate market
- Physical deterioration of the property
- Damage from events like wildfires

Annual Adjustments

After a Prop 8 reduction, the assessor reviews your property value annually to determine whether it should remain in the reduced status. Your assessed value may increase or decrease each lien date by more than the 2% maximum allowed for properties assessed under Prop 13; however, unless there is a change in ownership or new construction, it can never increase above its existing Prop 13 factored base year value.

To get more information about Prop 8, use this QR Code to visit our website

Total Number of Prop 8 Assessments

What Special Districts and Schools Should Know About Proposition 13 & Proposition 8

Stable, But Capped Growth

Annual assessed value increases are limited to 2%, capping property tax revenue growth—even in strong markets.

Reassessment Triggers = Revenue Opportunities

District revenue typically increases when properties are sold or newly constructed, which resets their assessed value to market level.

Market Downturns Don't Affect All Properties Equally

Under Proposition 8, assessed values may be temporarily reduced if market values fall below a property's Prop 13 value. However, many long-held properties already have assessed values well below market value—and are not reduced during downturns. This helps stabilize a portion of the property tax base, even when the real estate market declines.

New Development Drives Future Revenue

The pace of new construction and permitting activity plays a direct role in growing the tax base.

Business & Personal Property Assessments

Unlike real property, which is protected under Proposition 13, business personal property is not subject to value caps and is assessed annually at full market value, as required by California Revenue and Taxation Code Section 441.

What Is Business Personal Property?

Business personal property includes items such as:

- Machinery and equipment
- Office furniture and computers
- Fixtures and supplies

Each year, businesses must file a Business Property Statement (BPS) with the Assessor for every location they operate in Sacramento County. This statement lists all taxable business assets and is mandatory for any business with personal property with a total cost of \$100,000 or more at a single location. However, the Assessor may request a filing regardless of value.

To streamline reporting, businesses can file online through the Standard Data Record (SDR) or eSDR portals.

How Is It Assessed?

The Personal Property Division determines the fair market value of business personal property as of January 1 each year. These assets are generally assessed annually and placed on either the Unsecured Roll or the Secured Roll, depending on how they are tied to real property.

- If the business owns the land or building where the property is located, personal property and fixtures are typically enrolled on the Secured Roll, which is backed by the real estate.
- If the business is a tenant or lessee, the assessment is placed on the Unsecured Roll, meaning it is not secured by the real estate and is the responsibility of the business owner.

What About Other Personal Property?

The Assessor also appraises non-business personal property owned by individuals, including:

- Boats
- Aircraft

Like business personal property, these items are reassessed annually at market value and are typically listed on the Unsecured Roll, since they are movable and not connected to real estate.

Assessor's Office Informal Review

Each year, from July 1 to December 31, property owners may submit a Request for Assessment Review. This service is available at no cost and can be completed online or by mail through the Assessor's website.

Even outside of the filing period, owners are encouraged to contact the Assessor's Office promptly if they believe there is an error in their assessment. Many concerns can be resolved quickly and informally — without the need for a formal appeal.

Formal Appeals Process

If a property owner is not satisfied with the outcome of the informal review, they may file a formal appeal with the Sacramento County Assessment Appeals Board — an independent body established to resolve assessment disputes. The Appeals Board is composed of members appointed by the Sacramento County Board of Supervisors.

To begin this formal process, an application must be filed with the Appeals Board, along with a \$30 filing fee. Supporting documentation or evidence is required to support the appeal.

ADU Characteristics Program Released

We're proud to share some exciting news! The Sacramento County Assessor's Office has been honored with the 2025 National Association of Counties (NACo) Achievement Award for Innovation for our groundbreaking Accessory Dwelling Unit (ADU) Characteristics Program.

As featured in last year's Annual Report, this forward-thinking initiative was created in response to California's growing support for ADUs—those backyard cottages, in-law units, and converted garages that are becoming increasingly common in neighborhoods across the state.

Until recently, property characteristics in our system captured only the basics: square footage, number of bedrooms and bathrooms, and general building features. But ADUs brought new complexity—and new opportunities. We recognized the need to clearly identify and categorize these units separately from other structures, and we acted.

Our program was the first of its kind in California, setting a new standard by adding detailed ADU-specific attributes to our property database. This not only improves accuracy in property tax assessments but also provides valuable data for homeowners, developers, permitting agencies, lenders, appraisers, and real estate professionals.

This recognition isn't just a win for our office, it's a win for transparency, innovation, and smarter government service. We're honored to lead the way as our communities evolve and grow.

Property Tax Exemptions: Expanding Access to Savings for Property Owners

As part of our commitment to equitable taxation and public service, the Assessor's Office continues to promote and administer a variety of property tax exemptions designed to provide meaningful financial relief to eligible property owners. These exemptions reduce the assessed value on qualifying properties, resulting in lower annual tax liabilities and increased awareness of property tax rights and benefits under California law.

Homeowners' Exemption

The Homeowners' Exemption remains one of the most widely utilized property tax savings tools in California. Property owners who occupy their home as their principal place of residence may qualify for an annual exemption of \$7,000 off their assessed value—resulting in more than \$70 in annual tax savings.

This exemption is automatically renewed each year, provided the claimant remains eligible, and continues to serve as the foundation for qualification under Proposition 19's base year value transfer and parent-child exclusion provisions.

Disabled Veterans' Exemption

California provides enhanced property tax relief to veterans with service-connected disabilities and their unmarried surviving spouses through the Disabled Veterans' Exemption. For the 2025 assessment year:

- The Basic Exemption provides annual savings exceeding \$2,104.
- The Low-Income Exemption, available to qualified claimants with total household income under \$78,718, offers savings of more than \$3,155.

Eligibility is based on specific criteria, including total disability, blindness, or the loss of limbs due to military service. The exemption applies to the principal place of residence and must be renewed annually for low-income claimants.

Institutional Exemptions

Properties used exclusively for qualifying nonprofit purposes may be eligible for Institutional Exemptions under California law. Eligible uses include:

- Religious worship
- Educational instruction
- Charitable or hospital services
- Scientific or library purposes
- Cemeteries and museums

These exemptions apply only to property owned and operated by organizations that meet specific legal and operational requirements under the California Constitution and Revenue and Taxation Code.

Filing Requirements and Deadlines

It is important to note that none of these exemptions are granted automatically. Claimants must file the appropriate forms with the Assessor's Office and provide documentation verifying eligibility. Timely filing is critical to avoid the loss of benefits and to preserve eligibility.

Qualifying Exemptions As of June 30, 2025

Exemption Type	QTY	Total Value	% of Total Value
Homeowners ^{1*}	206,900	1,448,159,347	11.27%

Property Tax Assessment Calendar

JAN 1	Annual Lien Date. All taxable property is assessed annually for property tax purposes as of 12:01 a.m. on January 1.
FEB 15	Deadline to file exemption claims – Veterans', Homeowners', Church, Religious, Welfare, Historical Aircraft, and other Institutional Exemptions.*
APR 1	Due date for filing statements for business personal property, aircraft and boats. Business property owners must file a statement each year detailing the cost of all supplies, machinery, equipment, leasehold improvements, fixtures and land owned at each location within Sacramento County.
APR 10	Last day California Law allows the TAX COLLECTOR to receive a second installment of secured property taxes without accruing a penalty. This tax is based on property values for the January lien date 15 months earlier.*
MAY 7	Last day to file a business personal property statement without incurring a 10% penalty.
JUN 30	Last day to close the local annual assessment rolls for current fiscal year. Assessment roll data released to Sacramento County Department of Finance.
JUL 1	First day of new assessment roll year and new fiscal year.
JUL 2	New assessed values posted to Assessor's website. First day to file a Decline-in-Value Review with the Assessor's Office. First day to file an Assessment Appeal Application with the Sacramento County Assessment Appeals Board.
AUG 31	Last day California Law allows the TAX COLLECTOR to receive taxes on unsecured tax bills without accruing a penalty.*
NOV 30	Last day to file an Assessment Appeal Application with the Sacramento County Assessment Appeals Board based on the assessed value shown on the tax bill.*
DEC 10	Last day California Law allows the TAX COLLECTOR to receive first installment of secured property tax bills without accruing a penalty.*
DEC 31	Last day to file a Decline-in-Value Review with the Assessor's Office.

** If date falls on Saturday, Sunday or legal holiday, mail postmarked on the next business day shall be deemed on time.*
